

Design a **conference registration form** with the following fields and requirements:

1. **Participant Details:**
 - **Full Name:** Required, text input with a placeholder "Enter your full name."
 - **Email:** Required, validates format, placeholder "example@domain.com."
 - **Phone Number:** Required, 10-digit input.
 - **Age:** Number input, only accepts values between 18 and 60.
2. **Event Preferences:**
 - Dropdown to select **up to two events**:
Options: Coding Contest, Hackathon, Paper Presentation, Robotics Challenge, Keynote Session.
Use the multiple attribute to allow multi-selection.
 - Add a note below the dropdown: "Hold Ctrl (Windows) or Command (Mac) to select multiple options."
3. **Accommodation Details:**
 - A group of radio buttons to select accommodation type:
Options: "Hostel," "Hotel," "None" (required).
4. **Dietary Preferences:**
 - A group of checkboxes to allow multiple dietary preferences:
Options: "Vegetarian," "Non-Vegetarian," "Vegan," "Other (Specify below)."
 - Include a text input below for specifying "Other" dietary preferences (disabled by default and enabled only when "Other" is checked).
5. **Additional Info:**
 - **Upload Documents:** A file input for uploading student ID (PDF only, maximum size 5 MB). Use the accept attribute.
 - **Comments/Requests:** A textarea for participants to write comments (optional, with a character limit of 300).
6. **Consent and Submission:**
 - A checkbox to confirm the participant agrees to the **terms and conditions** (required).
 - Include two buttons:
 - "Submit" button to send data to the server (Display in the next page the results using either "get" or "post").
 - "Reset" button to clear all fields.
